

# CARROLL'S JOINERY

YOUR  
KITCHEN  
SPECIALIST

Proudly incorporated  
in our design concepts

**blum**

## KITCHENS, SCULLERY, LAUNDRY & STORAGE

We have an experienced team of designers, one of which will work with you to design a concept that's just right for your space - whether new or renovated.

## CUSTOM JOINERY & BESPOKE FURNITURE

Our experienced and passionate tradesmen can create timber joinery, doors, windows, stairs and original handcrafted items of furniture.

## INNOVATION & TECHNOLOGY

We strive to provide all our clients the best experience including the latest virtual 3-D tours of your concepts at our showroom or remotely. See it, love it!

# OUR PROCESS

At Carroll's Joinery we offer the Design Services below. From there we use a 6-step process to make planning, buying and installing your new kitchen as easy and enjoyable as possible.

## DESIGN SERVICE CONSULTATION FEES

### \$250 - Kitchen

**\$100 - Alternative room/space** ie. laundry/scullery/pantry/vanity/wardrobes etc

This price includes a consult with one of our designers in our showroom (or virtually) to discuss your kitchen, plus a further meeting to present your kitchen concept and quote.

In advance we require the following (email or drop in):

- Photos or drawings
- Measurements - walls/spaces
- Details of appliances

[accounts@carrollsjoinery.co.nz](mailto:accounts@carrollsjoinery.co.nz)

(Your drawings don't need to be a masterpiece as we will always do a comprehensive site measure prior to manufacture).

Note: This price includes **one consult** to discuss your kitchen/space, and **one other** to present your design concept and quote.

**You will receive** 3-D image/s of the design concept and a quote.

- Thereafter, an \$85 per hour fee will apply.

### \$150 - Site Visit Fee

This additional fee covers a site visit where full measurements will be taken by Carrolls prior to design start - within Wairarapa (extra mileage may incur an additional fee).

**PLEASE NOTE - UPON ACCEPTANCE of our quote, any of the above fees charged will be deducted off the final quote amount.**

## 1 | POINT OF CONTACT - SERVICE FORM

The first point of contact is to establish a client's requirements. Contact details will be taken and we determine which level of service is required - **showroom consult** or **site visit**. Client to **sign** the Design Service form.

Next, it is important to make an appointment so your designer can schedule uninterrupted time with you when taking a design brief or site visit. Typically this will take an hour.

## 2 | DESIGN BRIEF & PRESENTATION

For this first appointment our designer will need measurements or plans, any functionality and layout details and material options.

A second appointment will be arranged where you will be presented (or emailed) the proposed design concept and pricing. You will get to view realistic 3-D images of your space with an opportunity to discuss different product and pricing options.

## 3 | ALTERATIONS & SIGN OFF

Any further design alterations are charged out at the hourly rate. We recommend using this time effectively.

Your designer will make contact to arrange a final meeting to sign off your quote, plan and specifications including choice of materials, colours and accessories. We will discuss your installation date timing.

We really look forward to helping you create your ideal kitchen!

If you have any further questions, please don't hesitate to call us on (06) 377 3160

## 4 | DEPOSIT & SITE MEASURE

Upon acceptance of our quote we require a 50% deposit of the total bill and full payment of any appliances. We will provide you with an installation date. Subject to your site being ready and deposit received, we then arrange a time to perform a detailed site measure. Your finalised plan will go to our factory for the building process to commence.

## 5 | FACTORY TOUR & PAYMENT

When our factory team have almost completed your new kitchen, your designer will invite you to our factory to view it at its near-complete state. Most benchtops require templating once cabinetry is in place so the benchtop may not be available to view prior to installation. We will show you where and how your kitchen has been made.

**At this time, your 45% installment payment will be due.**

## 6 | INSTALLATION & GUARANTEE

Our team will be in touch periodically to check you are ready for installation to take place. Once your kitchen installation is complete the final 5% of your kitchen/joinery payment is due. Once final payment is received we will send you your 10 Year Transferable Guarantee.

**Once you're all settled in, we would love to arrange to photograph your beautiful new kitchen/joinery project for our records.**

# KITCHEN / LAUNDRY / SCULLERY / WARDROBE ...

The heart of the home - a well designed kitchen you can enjoy for many years, this is Carroll's speciality. Doing a kitchen well is a great investment - not only for you to enjoy with family and friends but a selling point for future owners.

Once considered a luxury - a smart laundry can add value and function to a home. You may not always have the luxury of space so our team are experienced in showing you the best use of space and function to create a great laundry.

Walk-in pantries have become an integral part of modern living - offering the benefits of a clutter-free kitchen. Within your budget we can also work solutions for utilising maximum storage space when walk-in isn't an option.

Carroll's also design and fit wardrobes to your requirements, offering consistency and enhancing relationships between both parties if we are following through from the kitchen design to other areas of the build or renovation.

# VANITY / CUSTOM ITEMS / TIMBER JOINERY

If off-the-shelf isn't going to work for you we can make a custom vanity from a range of materials and sized exactly to your specifications - giving you a unique look and fitting whatever level of storage you need within it.

Our tradesmen custom makes the item from the plans you have created of your design - allowing for a one-off bespoke piece or a custom set. This also includes repairs to timber items that may require preservation.

Entertainment units, storage solutions and window seating are just a few examples of items that can be created to your design or we can work with you to come up with a concept that ticks all the boxes.

Creating timber joinery is another Carroll's speciality. Doors, windows and stairs can be created to replace existing, enabling you to retain the character and integrity of a property - or we can build new to your specific design plans.

# HARDWARE / ACCESSORIES / LIGHTING / APPLIANCES

Blum's Space Tower is a great solution for storage. It offers superb access and there's no need to pull everything out to get at the back of the cupboard! You can't beat the ease of sliding out a drawer and having access to all items.

Together we can have you working in your kitchen like a chef! There's a modern storage solution for all items - from cutlery inserts, spice racks, knife blocks, oil pull-outs, bins and more - including sinks of all sizes shapes and colours.

Creating ambiance is a big part of good design and lighting is an important factor. LED strip lighting on shelving, overhead cabinets, pelmets or toe kicks and more can add x-factor and sensor touch convenience.

We have full access to all Fisher & Paykel appliances and can offer our clients the option of supplying these directly for their project - at competitive rates, saving money, plus time and effort of having to shop around.

# ABOUT US

Carroll's Joinery Limited are specialists in kitchen and timber joinery manufacturing – providing quality work throughout the lower North Island.

## OUR ORIGINS

The family owned business started in 1984 by John and Piki Carroll. Over the last 30 plus years the business has been at the forefront of innovation. Since 2006, owners husband and wife team Richard (John and Piki's son) and Cath Carroll have continued to provide top quality workmanship and products.

## SHOWROOM & DESIGNERS

Throughout the ongoing development, the integrity of the original property has been maintained and is still part of the business. Our focus is on providing a comprehensive showroom to enable our clients to be exposed to the most up to date styles and trends in the kitchen industry. We have kitchen designers on site in our showroom and this enables us to have personalised, one-on-one relationships with our clients. All of our plans are 3-dimensional, which enables you to see clearly the vision of your new kitchen, renovations, laundry, scullery, wardrobes or storage solutions.

## MODERN EQUIPMENT & INSTALL TEAM

We have a purpose-built factory on the same site. This large modern factory is equipped with up-to-date machinery enabling us to provide quality workmanship for our clients. Having our own qualified installation team ensures consistency and quality control throughout the entire process of your project.

## Take A Tour ...

Take a virtual tour of your design plans in 3-D and discuss details with your designer in our showroom – or we can work with you from the comfort of your own home through our remote online services.
